

# Pomona ACTS

3 plans • 6 strategies • 9 projects • 14 partners

Pomona ACTS envisions a livable, vibrant, equitable, and resilient Pomona, responding to the challenges of climate change while leveraging opportunities to improve public health, shared prosperity, and community identity

## TRANSFORMATIONAL ELEMENTS

### Community Engagement

### Displacement Avoidance

### Workforce Development and Economic Opportunities

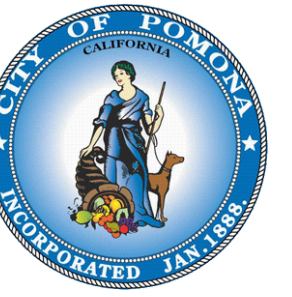

## STRATEGIES AND PROJECTS

### ACTIVE TRANSPORTATION

**Complete Streets** to encourage safe, active transportation through dedicated bike lanes and downtown walkability improvements

### TRANSIT AND RAIL ACCESS

**Metro Transit Pass Programs** to increase clean public transit ridership through free bus passes to students, seniors, people with disabilities, and low-income residents

### CAR SHARING AND MOBILITY ENHANCEMENT

**E-bike Library** to increase electric-assist bicycle access to residents through a subsidized monthly subscription share program and vouchers for purchase

**EV Chargers and EV Adoption Education Campaign** to encourage EV ownership through installation of EV chargers and a targeted EV adoption campaign

### SOLAR INSTALLATION, ENERGY EFFICIENCY, AND APPLIANCE ELECTRIFICATION

**Resilient and Health Homes** to increase energy resilience and improve air quality in homes through no-cost solar, storage, energy efficiency, and electrification residential offerings

**Residential Cool Roofs** to offer cool roofs for solar and improve residential insulation by replacing single-family end-of-life roofs

**Community Energy Resilience Centers** to offer community members access to electricity during power outages, extreme weather, or other emergencies by installing solar, batteries, and energy efficiency at two community sites

### URBAN GREENING AND GREEN INFRASTRUCTURE

**Tree Planting** throughout the project area to reduce urban heat island effect and provide other benefits, accompanied by community education to raise awareness of the benefits of street trees and green infrastructure

### HEALTH EQUITY AND WELLBEING

**Community Urban Farm** to increase local food access, eco-education, and green space through the expansion of services at an established urban farm

We are proud to acknowledge the following additional project partners:

- for their support with our Pomona ACTS proposal

- for their support with our Pomona ACTS site tour clean bus
